RV Park Septic Service Information—Covered Bridge Festival

Service Provider

Service will be handled by Adamson's Portable Restroom Service and will begin at approximately 6 to 7 AM each scheduled day. **Since pumping will overlap with show hours, this will require registration and payment for service in advance.** You will not be required to be on site for service. Since all RV Sites are numbered, we will keep a list of RV's needing service and Adamson's will check with us for any scheduling updates.

Schedule

Check the RV park calendar for scheduled service dates. While 3 service dates are scheduled per RV, additional service dates can be requested depending on your requirements. Since Adamson's are the contracted provider for porta-let services during CBF, they will be in town every morning beginning with the opening day of the festival. If you require service prior to the start of CBF, you need to schedule the date on the registration form in advance for us to arrange service. **You will not receive service unless you register and pay.**

Cost of Service

\$20.00 per pump. If you pre-register and pay by September 30, you will receive a discounted rate of \$15.00 per pump. Also, if you pre-register and pay for your anticipated service requirements and later require an additional pump, we will not penalize you. The enclosed registration form is provided for your convenience.

Willow Rose Properties and Adamson's Portable Restrooms will not be responsible for any defective fittings, valves, etc, on the septic system of any RV, that would hinder or prevent proper pumping service. Please make sure your RV does not have any leaks or defects prior to arrival. If a problem develops during your stay, we expect you to correct it immediately.

Reporting Service Problems

If you suspect your RV was not pumped as scheduled, please double check for paper clogs, and then notify us immediately. Also, most RV's have 2 holding tanks (black & gray water) controlled by a valve on each tank. If you know your RV has an extra tank and valve, (or any other unusual configuration), please advise us so we can make the service provider aware of the situation. You are also responsible for unlocking any compartments for pumping access. If you miss service because of negligence on your part, we will expect additional payment for emergency service or you will wait until the next service day.

Remember, any dumping of sewage on the ground will result in immediate loss of RV Site.

Please contact us if you have any questions.
